

PT01 Scratch Control Assembly Board

Part number: TWPC16P00701

Points to note about installing the Control Assembly Board as a replacement for your current damaged or faulty board.

<p>1</p>	<p>Disconnect the white 'ribbon' cable plug from underneath the board, which is used to connect to your PT01 Scratch 'switch' or 3rd Party 'fader'.</p>	
<p>2</p>	<p>Turn the board over, un-wind the white 'ribbon' cable and snap off the surplus switchboard, which can be disposed of. Take off all three of the rotary knobs from your damaged/faulty board and place on the new PT01 Scratch Control Assembly Board.</p>	
<p>3</p>	<p>Re-install your new PT01 Scratch Control Assembly Board.</p>
